

IES Consulting

Linking students to the working world

About us

IES Consulting is a Human Resources Consultancy specialized in providing paid internship positions abroad for European students.

Within the framework of the project to **promote international student mobility** we connect the demand of educational institutions, students and companies by offering **professional international internships**.

More than 500 recognized universities in France, Italy, Germany, Netherlands, UK and other European countries count among our partners in the joint mission to enable students to find their internships abroad.

Our mission

Our goal is the promotion of the international mobility of students which allows them to gain valuable experience abroad and get to know new cultures already during their studies.

Our employees set a perfect example: They come from different countries, speak at least 3 languages and have proven their intercultural sensibility during various stays abroad. Hence IES Consulting is the perfect link between international students and companies in Spain, France, Mexico and Germany.

Personalized recruitment processes

We offer all applicants a personalized selection process taking into account each candidate's personal interests, qualifications and language skills. We get to know each candidate during various telephone or Skype interviews which allows us to find the perfect internship position for each student.

Furthermore we support the students with all administrative tasks concerning the internship contract or any applications for Erasmus, Leonardo and other scholarship programs. We ensure a smooth integration in the internship destination by providing information about international insurance, flat search and regarding any questions or doubts throughout the whole duration of the internship.

Our internship offers

Due to our continuous effort in establishing, maintaining and improving relationships with our trustworthy partner hotels and companies we have built up a broad network of more than 1000 internship hosts. Our close partnerships allow us to negotiate and to continuously improve the conditions for the students.

Year round we offer positions for 2-12 months, in hotels and companies of diverse sectors in Spain, Mexico, France and Germany in a growing number of departments:

HR MANAGEMENT MARKETING PR	SALES FINANCE&CONTROLLING IMPORT&EXPORT LOGISTIC	ENGINEERING IT/INFORMATICS TEACHING EVENTS&ANIMATION	FOOD&BEVERAGE RECEPTION AND MANY MORE
---	---	---	--

Internship search without any risks

Registration and the selection process at IES Consulting are free of charge. Only after confirmation of an internship position by the company in accordance with the student's and university's requirements, we will charge a fee for our service. As we are committed to an open and transparent selection process, the student will know the name of the company before we ask him to take his decision.

Our fees depend on the duration of the internship:

- Internship up to 3 months: 390€
- Every additional month: 55€
- e.g. 4 months: 445€

Would you like to help your students to find their internship abroad?

We provide you and your students access to our internship offers by publications on your university job board, monthly newsletters or alert of new vacancies.

Contact us in order to talk about the internship requirements of your institution
